Insights for sustaining life on Earth

Perception, use, and local conservation of the *Crocodylus intermedius* in the Cravo Norte, Ele, and Lipa (Arauca) rivers complex

Topics: conservation in freshwater, human and wildlife interactions

Release:

My research aims to compile the future and current human-Crocodyle interactions for the *Crocodylus intermedius* conservation in the Cravo Norte, Ele, and Lipa (Arauca) rivers complex. It determines the perception and use of the species as a tool for the prioritization and management of it in the local, regional, and national ambit.
